AFTER SCHOOL ACTIVITIES

Art and craft

In this creative and hands-on activity, young children will explore the world of art using recycled materials!

From painting and collage to sculpture, our little artists will use everyday items to create beautiful and imaginative pieces of art. This activity encourages creativity, fine motor skills, and environmental awareness, all while having fun with colors, textures, and shapes.

Class of Thursday with Francesca
3:45pm-4:45pm
PS-MS-GS

 **340 €**
annual fees

CODING

In this rapidly changing world, digital capabilities become essential.

New technologies influence the daily lives of all of us, children and adults. From this perspective, it has become important to accompany the youngest towards a knowledge and conscious use of digital tools. Kids become creators of technology and not simple consumers of apps

CP - CM2 : Robotic, Spike, Scratch, Pitch
Middle - High School : programming, coding

Elementary Thursday 3:45pm-5:15pm

Middle, High School Thursday 5.30pm-7pm

 **500 €**
 **annual fees**

Early Motor Skills

This activity is designed to help young children develop their motor skills through fun and engaging exercises. Focused on coordination, balance, and movement, it supports physical development in a playful way.

Children will explore a variety of activities that improve their ability to move, jump, run, and control their body movements, all while building confidence and having fun. It's a great foundation for physical and cognitive growth in preschoolers.

Class of

Thursday with Biagio
3:45pm-4:45pm
PS-MS-GS

 **340 €**
annual fees

Musical Exploration

This program introduces preschoolers to the world of music through fun and interactive activities. Children will explore different sounds, rhythms, and melodies using instruments, singing, and movement. The focus is on developing listening skills, creativity, and self-expression, all while having fun with music in a playful and supportive environment. It's a wonderful way for young children to build a foundation in music and enjoy the joy of sound!

Mind Games

Join us for a fun-filled activity designed to challenge and inspire young minds!

This program offers a variety of games that cater to all interests—logic puzzles, word games, observation challenges, math puzzles, cooperative activities, and even storytelling adventures. Perfect for little learners in preschool, these games are designed to boost creativity, problem-solving skills, and teamwork, all while having lots of fun!

Class of Tuesday with Francesca

PS-MS-GS

 **340 €**
annual fees

Theatre

This theatre program invites high school students to explore the art of acting and performance. Through a mix of improvisation, scene study, and character development, students will enhance their confidence, creativity, and communication skills. They'll work together to bring stories to life on stage, learning teamwork, expression, and the power of dramatic arts. Whether preparing for a play or exploring different theatrical techniques, this is a great way to express yourself and shine in front of an audience.

annual fees

Meditative coloring

This calming and enriching activity encourages mindfulness while equipping children with simple tools to reduce stress and improve their mood. In a quiet, distraction-free environment, children are guided to focus on colors, patterns, and the soothing act of coloring. Each session begins with gentle stretching and a brief moment of guided breathing or meditation to help children center themselves and become present. Afterward, they transition into mindful coloring, where they can explore creativity while enhancing focus and relaxation.

Class of

Little Scientists

This workshop is designed to introduce young children to the wonders of science in a fun, interactive, and age-appropriate way.

Through simple and exciting experiments, children will develop their curiosity, observation skills, and scientific thinking. They'll explore fascinating phenomena such as chemical reactions and changes in state, propose hypotheses, and test their results. The activity also helps children learn how to use scientific equipment safely and introduces basic concepts in physics, chemistry, biology, and ecology.

Class of Tuesday with Marie Agnes

Yoga for Kids & Teens

Yoga is an activity that combines movement, breath, and relaxation. Tailored for children and teens, it promotes flexibility, strength, balance, and coordination. It also helps improve concentration, build self-confidence, and manage emotions. Through playful poses, breathing exercises, and moments of calm, participants learn to listen to their bodies, refocus, and relax after a busy school day. Yoga is a great way to foster physical and mental well-being from a young age.

No History Without Stories

Testimonial

This activity explores the idea that history is not just a timeline of events — it is made of personal stories, voices, and experiences. Through storytelling, biographies, letters, and testimonies, students discover the human side of history and learn to connect facts with emotions, choices, and consequences.

An engaging way to understand the past through the stories that bring it to life.
